DETAILED ACTION

ElectionIRestrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 thru 12, drawn to semiconductor device, classified in class 257, subclass 288.
- II. Claims 13 thru 29, drawn to method of making semiconductor device, classified in class 438, subclass 197.
- 2. Inventions I and II are related as product made and process of making. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP 806.05(f)). In the instant case, instead of the method used in claims 13 thru 25, the product of invention I can be formed by diffusing an oxygen bearing species.
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
- 4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dana Farahani whose telephone number is (571)272-1706. The examiner can normally be reached on M-F 9:00AM - 6:00PM.
